

## E-Mentoring Program

The E-Mentoring Program offers ACES middle school students the opportunity to connect with adult role models in their community. E-Mentors are usually paired with two students, aka E-Mentees, who they email with once per week. The program culminates in a job shadowing opportunity for E-Mentees. We focus on career exploration and integration of the E-Mentoring program with the students' service-learning projects.

### Program Goals

- Encourage students' career exploration, educational growth, and development of personal interests.
- Provide an opportunity for professional adults to communicate with youth in the community.
- Improve students' writing and communication skills.
- Expand students' technical knowledge (practice with email programs, typing, etc.)

### E-Mentor Expectations

- Provide on-going communication, motivation, and positive reinforcement for one or two ACES students.
- Correspond with students via email once per week.
- Attend the orientation.
- Attend service-learning field trip/meet & greet with students.
- **Photograph and video release. I authorize ACES to photograph and videorecord me while participating in the ACES program or an ACES field trip. I understand that the photographs and video footage that may be used to publicize the program will always be used in a positive manner & that all photographs and video footage become the property of ACES.**
- No, I do not authorize my image to be used by ACES in any manner.

I agree to follow all of the above stipulations of this program in order to ensure the best possible mentoring experience for my E-Mentee(s).
